WHAT IBIS 2008 ATTENDEES HAD TO SAY...

“Professional Setting, Passionate Instructors.”

“IBIS was very well coordinated and the tracks seem to cater to every possible aspect of Business Intelligence.”

“My favorite part of IBIS was getting inside knowledge from the consultants.”

“This is my first time attending IBIS and it is very different from any other conference that I’ve attended. This hands-on type of conference is very helpful and very beneficial, not just to me, but to others in my work place.”

“Having technical resources on-site to answer the more in-depth questions was great. The test drives and demonstrations were all very impressive and informative.”

“IBIS offered great product knowledge building opportunities, as well as classes, to improve technical skills. Attending IBIS was a great investment of my time that will be paid back to me many times over.”

“IBIS is a smaller, more intimate setting than larger Business Intelligence conferences I’ve attended. I was able to get a lot more out of this conference and appreciate the attention that the InfoSol staff showed to our team.”

**Online registration begins January 5 at
