

The Report and Dashboard Distribution Solution for BusinessObjects Edge Series

The new BusinessObjects Edge Series function-packed Business Intelligence offering for Medium and Small businesses is now further enhanced with the availability of a specially packaged and priced version of the leading Business Intelligence report and dashboard distribution solution - InfoBurst.

InfoBurst-Edge brings true "refresh once" report bursting capabilities for both the Web Intelligence and Crystal Report reports you use in the BusinessObjects Edge Series. It also provides the unique capability of automatically scheduling and distributing your Crystal Xcelsius dashboards in the BusinessObjects Edge Series.
